# First section

# Formula

$$3) \frac{6}{5} = L^- sys \frac{job.time}{time} = jobs$$

$$2) \frac{3}{5} = L^- sys \frac{job.time}{time} = jobs$$

$$1) \frac{3}{5} = L^- sys \frac{job.time}{time} = jobs$$

# Text

To do:

- ▲ R course on DataCamp
- ▲ Hw1 code on GitHub

D.L 2019-02-06 23:55

- . compute CLASS JOB:

    2019-02-13 14:30

    upload Hw1 (made using R)
